REVIEW OF TEACHING LEARNING PROCESS

The institution reviews its teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals through IQAC & AMC (Academic Monitoring Committee)

Teaching Learning Process and Reformatations

Sr. No.	Method of delivery of syllabus	Description
1	Lecture	The conventional teaching method of 'chalk and board' is shifted to LCD - based classroom teaching. This allowed more scope and time for interaction with students, rather than developing the concepts on the blackboard.
2	ICT Tool	The teaching faculty is also using new ICT tools of teaching such as recorded lecture on YouTube channel, e-note on google classroom, animated video, screen cast videos that makes the student more updated with the recent trends also enhances their interest towards learning.
3	Experiments and Laboratory Work	Demonstrates how theory can be verified by experiments through interpretation of results. Animal experimentation through simulation of pharmacology that restricted the use of animals for undergraduate course also increases understanding of concepts of experimentation.
4	Continuous assessment	Tutorials are made more interactive and student - centric which facilitates the learning process. Continuous assessment of student through different academic activities like open book test, short presentation, group discussion increases student communication & interest.

NAAC Accredited with A+ (CGPA - 3.46)

5	Assignments	Assignments on subject topics are being introduced and are self-learning exercises for the students, where in the teacher acts as a facilitator.
6	Academic Software	Drug design software like Chemdraw, Ultra, Chem 3D Ultra, SwissADME, Molinspiration are used for chemical structure drawing & property studies of molecule.
7	In-house training	In- house training of advanced equipment and instruments for students is also carried out by teaching faculty to handle the sophisticated instrument with comfort and confidence.
8	Industrial visit	Industrial visit of students to understand the practical aspect of formulation on tablets capsules and semisolid dosage forms makes easy to understand and long-lasting impact than the theoretical Knowledge also helps to understand practical problems associated with material handling and formulations. Environmental visit to nearby forest and herbarium to make students understand the practical approach of identification, cultivation and pharmaceutical application of various herbs.
9	Competitive exams like GPAT	The faculty encourages the students to get experience in answering MCQ type of questions. Faculty conduct GPAT orientation lecture. This is beyond the curriculum and being implemented, so as to train the students for competitive exams.
10	Student competitions	The communication skill development for students is fully employed by taking extra lectures, arranging competitions of student on different topics on several occasions.
11	Mentor Mentee System	All faculty members assign average 20 students as mentee for personal & professional counselling of student for overall development.

There is a provision of regular monitoring mechanism for reviewing the teaching- learning process. Academic Monitoring Committee (AMC) with academic in-charge under the guidance of the Principal monitors the teaching learning process regularly in the institution.

Methodology and Outcome of Teaching Learning Process

Sr. No.	Methodology	Outcome
1	Preparation of academic calendar & Periodic evaluation	Ensures effective academic implementation & timely completion of curricular & extra-curricular activities.
2	Preparation of teaching plan	Timely completion of syllabus.
3	Daily attendance record	Ensures student attendance
4	Continuous assessment/ In-semester examination	Student centric learning increases teacher student interaction, continuous assessment of student and facilitates the learning process
5	Seminars	
6	Assignments	
7	Project Work	Enhance student research skill, exposure to new advance in field through literature study. Use of National Digital Library sources like DELNET.
8	Extracurricular and Co-curricular activities	Overall personality development & improvement on leadership skill. Improvement in communication skill.
9	Organization of Workshop/ Seminars	Exposure to beyond the syllabus knowledge, in-hand training & upgrade the knowledge about advancement in pharmacy field.
10	Field visit	Understand the practical aspect of theory concept. Pharmaceutical application of different medicinal herbs.
