E-Waste Management & Waste recycling system

Dustbin for e waste kept near store department

Management office E-waste collected for repair, reuse, recycling and disposable process

Hazardous chemicals and radioactive waste management

A fume hood is in action at Pharmaceutical Chemistry Laboratory which is a ventilated enclosure in which gases, vapors and fumes are captured and removed from the work area.

Mechanism: - An exhaust fan situated on the top of the laboratory building pulls air and airborne contaminants through connected ductwork and exhausts them to the atmosphere.
